

The **SERVICE EXPERT** for **BAC Equipment**

Tailored **SERVICES** and **SOLUTIONS** for your **BAC**
cooling towers and equipment

BAC Inspect

YOUR DEDICATED PARTNER
IN INNOVATIVE HEAT TRANSFER
AND THERMAL STORAGE

 **ORIGINAL SPARE PARTS AND FILL**
FOR AN EFFICIENT, SAFE AND YEAR ROUND RELIABLE OPERATION

We develop, design, test and manufacture most parts, fills and eliminators in house to ensure the highest quality and performance and safest operation.

We exclusively offer genuine BAC parts and fills to:

- maintain the designed thermal performance
- lower the risk of premature failure
- achieve the lowest year-round operating cost
- guarantee safe operation

Using BAC original parts, ensures a first time fit and offers full traceability of your equipment history.

Original spare parts and fill

 **SERVICE SOLUTIONS**

PREVENTIVE MAINTENANCE, REPAIRS, REFURBISHMENTS, CLEANING AND DISINFECTION FOR RELIABLE, TROUBLE-FREE OPERATION

BAC's experienced service technicians ensure the highest quality work and expertise for any repairs or refurbishments.

We offer several maintenance programs for your BAC equipment. Our technician records the work done and makes suggestions for replacement parts or remedial measures to restore optimal operation and safety levels of your system.

Our service team can also assist you with:

- rigging supervision
- start-up and commissioning
- cleaning and disinfection

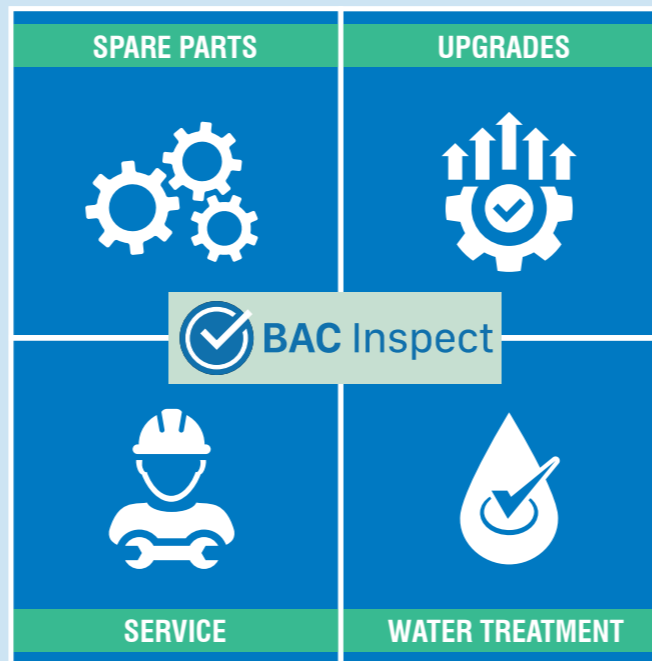

All for the most cost effective and most reliable operation of your equipment.

Preventive maintenance and skilled repairs

Rely on **BAC's expertise** to optimize your cooling equipment

Get your detailed and illustrated inspection report from BAC's expert via our **UNIQUE tool**:

Your inspection benefits:

- ✓ OPTIMAL PERFORMANCE
- ✓ LOWEST OPERATING COSTS
- ✓ YEAR-ROUND RELIABLE OPERATION
- ✓ MINIMIZE DOWNTIME

Water treatment

 **UPGRADES AND NEW TECHNOLOGIES**
SAVE ENERGY AND IMPROVE MAINTENANCE BY UPGRADING YOUR SYSTEM

Most existing BAC equipment can be upgraded with new BAC technology and components.

Depending on your needs, you can:

- improve maintenance and accessibility
- enhance operational safety
- reduce sound emission
- save on water and/or energy
- increase performance
- increase reliability
- monitor your system online

These upgrades are essential to improve your equipment's efficiency and comply with any new regulations.

Upgrades and new technologies

 **WATER TREATMENT SOLUTIONS**

EQUIPMENT FOR CONTROLLING CORROSION, SCALING AND PROLIFERATION OF BACTERIA

We offer a full range of water treatment equipment optimized for use in combination with your BAC equipment to minimize water usage, and control corrosion, scaling and bacterial growth.

We equally help you to control airborne contamination by installing filtration equipment. Together with the basin sweeper piping, our filters keep the recirculating cooling water clean, optimize the chemical usage and minimize the need for physical cleaning.
